

ECO RALLY COMUNITAT VALENCIANA 2021

DECISION Nº 2

From: the Stewards

Date: 18/04/2021

To: all concerned

Time: 11:45

The Stewards, having received a report from the FIA Technical Delegate (documents No 11 and No ), having examined the technical regs, and heard the FIA Technical Delegate, have considered the following matter, determine the following:

Time (fact): during the event

Session: during the event

Facts: Due a technical problems from the recharging columns at overnight parc ferme, the batteries of cars #16 and #17 were not fully charged at the start of 2nd leg.

Due a technical problems from the recharging colums at overnight parc ferme, the batteries of cars #8 and #16 were not fully charged at the end of the time for recharging on Sunday.

Regulations concerned: ERRC Technical Regulations, article 6.2 of energy performance index classification, cars must start and finish with a fully charged battery.

Decision: To calculate the data in order to get the Energy Performance Index Classification, as follows:

- For cars not fully charged a the start at 2nd leg, taking into account the true energy inside the car
- For cars not fully charged at the end of the time for recharging on Sunday, taking into account energy recharged from the column

Reason: Having considered the matter extensively, the Stewards determined that the competitors involved are not responsible for the fact that the batteries were not fully charged, therefore taking into account the energy charged in each car and under the principle of sporting fairness the Stewards decided to assign a corrected value as a nominal capacity of the cars involved in order to avoid a prejudice caused by application of the value corresponding to a fully charged batteries.

Competitors are reminded that certain Decisions of the Stewards are subject to appeal in accordance with Article 15 of the FIA International Sporting Code .
